Bank—Banksia.	H. C.—Hybrid China.
B.—Bourbon.	Mult.—Multiflora.
C.—Cherokee.	N.—Noisette.
Cl. T.—Climbing Tea.	Pol.—Polyantha.
Cl. H. T.—Climbing Hybrid Tea	Pr.—Prairie.
H. T.—Hybrid Tea.	T.—Tea.
H. P.—Hybrid Perpetual	

Prices F. O. B. Riverside, California. All bills due 60 days from date.

Five per cent discount if order aggregates 5000 plants or over. For less than 250 plants, aggregate order, 10 per cent addition will be charged.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference.

Sales made subject to stock being unsold when order is received or loss by any and all unavoidable causes.

Boxes charged at minimum rates.

We exercise the greatest care to keep our varieties true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise; but it is mutually agreed between the purchaser and ourselves that we shall not, at any time, be liable for any amount greater than the original price of the stock.

Stock can usually be handled by Christmas time. We can dig only one variety at a time for all aggregate orders to enable us to handle the output while dormant, therefore it is impossible to ship full assortments early in the digging season.

Our trade being wholesale only, we beg our friends not to hand our prices to parties not entitled to them.

GRADES

XX.—Very stocky and strong, heavily rooted. Are cut to 30 inches of wood when packed.

No. 1.—Hybrid Perpetuals and Climbers graded 24 to 30 inches of wood. Teas, Hybrid Teas, etc., graded 18 to 24 inches of wood. All plants stocky, well rooted, with three or more branches. Are cut to 24 inches of wood when packed.

No. 2.—Hybrid Perpetuals and Climbers graded 18 to 24 inches of wood. Teas, Hybrid Teas, etc., graded 12 to 18 inches of wood. All plants stocky, well rooted, with three or more branches. Are cut to 18 inches of wood when packed.

All No. 2's are extra fine for transplanting to nursery rows; a portion of them are heavy enough for retail use with many nurserymen.

Wm. A. Richardson, Marechal Neil, Reve d'Or, Cherokee, Safrano, Perle, Sunset, La France, Duchess of Albany, Marshall P. Wilder, and Gen. Washington are not as robust growers as other sorts and we are obliged to grade them a little lighter.

Bessie Brown—Flesh white sometimes faintly flushed pink; petals enormous and of shell shape; large flowers freely produced.

Burbank—A hardy and strong grower, constant bloomer. Color very deep pleasing pink, almost red.

Caroline Goodrich, or Clbg. Gen. Jack.—(Pillar Rose). An ever-bloomer, blooming in clusters; color dark red. Should be grown more.

Clbg. Cecil Brunner, also **Clbg. Papa Gontier** originated in Riverside and we are headquarters this year for both these grand climbers. They are free, constant bloomers and give flowers identical in color form and fragrance with the bush varieties. Both strong growers.

FRANCESCA KRUGER—The striking color of this rose places it at the front as a bud-producer in the open ground. Color, deeply shaded copper yellow.

General McArthur—Seedling from Marquis de Litta. A free-branching, vigorous and healthy variety, showing clean glossy foliage. Like Maman Cochet its vigor makes it the "rose for the people." Color crimson-scarlet, flowers early and late and fragrance is superb. The grandest red rose for the Pacific Coast.

Gruss an Teplitz (Greeting of Teplitz), one of the best new bedding roses. Color bright scarlet, shading to velvety crimson and is never "out of bloom."

G. Nebannond—Semi-double flowering, color pink, shaded with yellow, extra fine buds. Especially adapted for fall blooming. A strong grower giving long stems like Maman Cochet.

Helen Gould—Buds long and pointed, the flowers are full and perfectly formed and of rich warm rosy pink color.

Kaiserin Augusta Victoria—Bushes of this kind we grow beat the world. All who know this grand variety use large quantities every year.

Lady Battersea—This variety has long oval buds, sharply pointed, very striking in form. Color bright cherry red. The only red rose approaching Niphethos in form.

Marquis De Querhoent—A new rose of good growing qualities making a splendid bush, clean healthy wood and persistent bloomer. Color salmon copper and golden yellow-tinted pink—a beautiful combination.

Ragged Robin (Gloire des Rosomanes)—Brilliant crimson, semi-double constant bloomer and very fragrant. Just the thing for hedge row.

Striped Reine M. Henriette—As the name implies, this is a sport from the old favorite Reine Marie Henrietta. Has the splendid vigorous habit of the mother rose, while beautifully striped in carmine over pale rose, markings are very regular.

Zephirine Drouhin—Carmine color, very double, strong climber and can be grown in pyramid shape or on a trellis.

POTS FOR SALE—2-inch and 3-inch, second-hand at a bargain. Let us send you samples and prices if in need.
